#### The Invasion of Radical Islam in the US

Sunday, May 2, 7:00 PM in the Sanctuary

This is a power point presentation by Joseph Bagajian from the organization ACT! For America. ACT! For America was created by Brigitte Gabriel, a Lebanese immigrant who came to the United States after losing her country of birth to militant Muslim fundamentalists during the Lebanese Civil War. ACT! For America provides American citizens a means to be a collective voice for the democratic values of Western Civilization, such as the celebration of life and liberty, as opposed to the authoritarian values of Radical Islam, such as the celebration of death, terror and tyranny. This presentation will effectively inform and educate regarding the multiple threats of Radical Islam that are invading our borders at an accelerated rate of growth. This presentation will correct notions about Islam, demonstrate why radical Islam is so deadly, and how we as citizens can halt its progress.

Sundays 9:00 AM – Room 100  
Teachers: John and Charly Potts

This class is intended to help us build right thinking and the corresponding character qualities and habits that make for success at home, business and among our friends. To do so requires a lot of discipline. We often learn this discipline from our mistakes, taking years of hard experience. This class intended to help us avoid those mistakes with their negative impact on ourselves, our families and our society, by making the right value system a part of our daily lives. The class will require a commitment on your part to attend, participate in discussion and do the assignments. At the same time, you will find the class enjoyable and life-changing as you develop these important qualities in your life and see the immediate and long-term benefits.
